diamond.

This database lists all the labels encountered at CEMJazz when indexing our records. It contains a minimum of information (typically: country, period of activity, …) and provides links to sites where the matter is studied in more details.

To visit, choose an "inventory type" on the left. Not all records are indexed yet… especially in the "78t 10in." section!

info The collections:labels section presents the same data indexed by label names.
