Open Data

Cultural Data

The inventories of the CEMJazz collections are **cultural data** that we are gradually seeking to make freely available as part of an "**Open Data**" initiative at **CEMJazz**.

This data is made available under the terms of the Etalab 2.0 open licence.

More precisely, we export "Views" of the CEMJazz database, encoded in **UFT8** and saved in **csv** (basic) or **json** (more advanced) formats.

Files

As an experiment, we offer the results of indexing three complete collections (as of December 2023) of CEMJazz records.

Edison Diamant records (including some "non-jazz"):
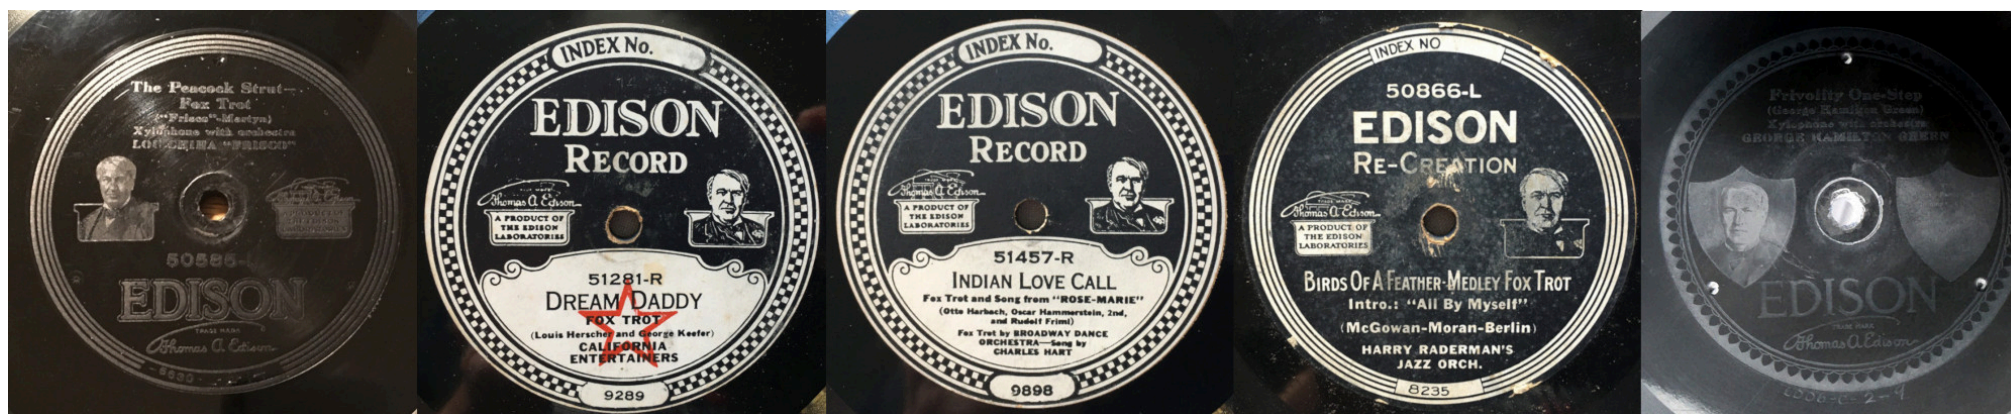

- Export in json format
- Export in csv format

Sapphire records (including some "non-jazz"):

- Export in json format
- Export in csv format

45rmp EPs (Jazz in 45rpm!!):

- Export in json format
- Export in csv format

Do not hesitate to contact us as part of this initiative: bdd@cemjazz.org, with the subject "Open Data CEMJazz".
